M5a Prelab: Techniques of Vector Analysis

Read the lab instructions and watch the video before doing the prelab

PART I and PART II of the Lab require only calculations. In both of these first parts, vectors will be added and subtracted graphically and analytically.

Have Part I and Part II done when arriving to the lab for your reservation.

- ✓ When adding vectors graphically, make sure to use graphing paper.
- ✓ Use page 7 of your lab handout to show your work for the analytical calculations.
